I do not believe I have taken the proper time to thank you for your representation of my case. I believe I actually called around to four or five other law offices before coming across yours. All of whom by the way did not exhume the confidence and belief in the case that your office did. Even though your office was a steeper price than the rest of them, it was more than worth the representation, planning, and results that I received from you and your fellow staff members.

I remember in a phone conversation that we had after you presented a hypothetical to the judge and prosecutor; you rightfully so, seemed very pleased with the results of your meeting with them and praised both yourself and myself in being able to make this happen. I can honestly say that all I feel I did was be me. Yes, I did go to school and receive my degree, and had many people willing to stand up and witness to my character and stay out of trouble ect. ect., but all in all, I believe that the bulk of the merit goes to you. I believe everything in this world happens for a reason. I am so very thankful in the fact that I came across you and your office.

I thank you from the bottom of my heart for what you did for me and the results that transpired due to your effort. I look forward to doing business with you again in six months to get this finished and put behind me.

In your debt,
